

GP BUCKETS for Skid Steers

OVERVIEW

Maxx GP Buckets are built to last with high strength A-572 steel and thicker material than your standard general purpose buckets. These buckets are heavier than most OEM buckets and are considered heavy-duty in the industry. They are made for small wheel loaders and skid steers.

These buckets can be custom designed to any height, width and depth that may be desired. Each bucket comes equipped with a bolt-on leading edge, high strength A-514 wear plates and wear pads.

Maxx Attachments offers a wide variety of heavy-duty buckets and rakes including:

- General Purpose Buckets
- Grapple Buckets
- Light Material Buckets
- Muck-It Buckets
- Multipurpose Buckets
- Rollout Buckets
- Scrap Handling Buckets
- Side Dump Buckets
- Skeleton Rock Buckets
- Grapple Rakes
- Loader Rakes
