**BUILT TO LAST.**

## SIDE DUMP BUCKETS for Skid Steers

### OVERVIEW

**Maxx Side Dump Buckets** are ideal for such diverse applications as tunnel construction, building levees, filling trenches and demolition of asphalt roadways and is designed to work in sand, gravel, loose dirt, and rock.

Perfect for operating in congested work sites and hard-to-maneuver work areas, this unique bucket can also dump forward for use as a conventional bucket.

Maxx Side Dump Buckets for skid steers are offered with three different size buckets and can be built with either a left side dump or right side dump.

### FEATURES

- Choose left or right side dump.
- Protected hydraulic cylinder.
- Heavy duty single cylinder with load holding valve.
- Feature a hydraulic lock valve and a mechanical lock for safety.
- Options include a rock rack and a V-type cutting edge for heavy duty rock loading.
- Material density of 2700-3200 lbs per cubic yard.
