BUILT TO LAST.

STORAGE BOX for Bobcat Skid Steers

OVERVIEW

The **Maxx Storage Box** for Bobcat Skid Loaders brings heavy-duty, secure on-machine storage. Specially designed for select Bobcat models, this storage solution features a smart, universal design that mounts seamlessly to **either the left-hand or right-hand side** of the machine. It provides an ideal, highly accessible location for users to store essential tools, tow chains, or tie-downs. The shape of the storage box mimics the clean lines of the Bobcat frame to maintain a streamlined, factory-integrated look.

For operators requiring maximum machine stability, our design allows you to attach factory OEM counterweights directly to the sides of the storage box—giving you the perfect combination of high-capacity storage and optimized rear weight.

A heavy-duty adjustable toggle clamp latch holds the lid down securely to eliminate rattling and vibration during rough operation, while also providing a built-in padlock tab for complete tool security on the job site.

FEATURES

- **Machine Compatibility:** Custom-fit design engineered specifically for select **Bobcat** skid steer and compact track loader models.
- **Dual Functionality:** Acts as both a functional storage unit and an integrated machine counterweight.
- **Full Bolt Pattern:** Complete hole alignment to allow attachment directly to the machine frame.
- **Mounting Hardware Included:** Comes with all necessary heavy-duty hardware for mounting (bolts, washers, nuts, plugs).
- **Industrial Construction:** Premium thickness built with a 1/2" steel bottom, 3/8" steel sides, and a 1/4" steel lid with a welded lip to deflect debris.
- **Built-in Drainage:** Designed with an integrated bottom weep hole to ensure any rainwater or moisture drains instantly, keeping your tools dry.

Model No.	Description	Weight (lbs)	Weight (kgs)
8040D1	Universal Bobcat Storage Toolbox (LH of RH Fitment) - 13" x 10" x 16"	77	35
